HPV Vaccine  
Global Community of Practice

## We Would Like to Invite You to Join the HPV Vaccine Global Community of Practice

If you are working ...

- In the field of reproductive health, adolescent health, STI prevention, cancer prevention or vaccine delivery
- With communities or countries engaged in planning and implementing programmes to prevent HPV-related disease
- With programmes that would benefit from the ability to systematically collect, share, transmit and discuss information about HPV vaccines and cervical cancer prevention

... The HPV Vaccine Global Community of Practice is for you!

The HPV Vaccine Global Community is an on-line global network of people who share an interest in preventing cervical cancer and in the role of HPV vaccines in health programs. We use the internet to share and exchange knowledge, ideas and resources to explore the feasibility of introducing HPV vaccines within cervical cancer control programs and thereby ensure that people around the globe have equitable access to the best available health care.
